

# CITY OF BELLEVILLE

## Notice of Public Information Centre

### Loyalist (West) Secondary Plan Update

The City of Belleville is currently undertaking an Update to the Loyalist (West) Secondary Plan, and will hold an in-person Public Information Centre (PIC). Please join us for this opportunity to discuss and provide your feedback on the Loyalist (West) Secondary Plan Area's draft land use concept, which was informed by the work and consultation that has been completed to date. Feedback received will help the project team solidify the land use concept and plan, as well as plans for phasing of development and implementation.

**The Public Information Centre (PIC) will be held on Thursday, September 22, 2022 from 5:00 P.M. to 7:00 P.M. at Loyalist College (376 Wallbridge-Loyalist Road).**

The Loyalist (West) Secondary Plan area encompasses approximately 950 hectares of land located east of Wallbridge Loyalist Road, south of Highway 401 and north of the Bay of Quinte. The Loyalist Secondary Plan (LSP) was adopted by City Council in 2010, and provides the framework for the current and future development of the Loyalist (West) Secondary Plan Area. An Update to this Plan is an important next step in planning for the future of the City.

**More information concerning this Update, including recordings of past public consultation, can be viewed on the City's website: [www.belleville.ca/LSPupdate](http://www.belleville.ca/LSPupdate).**

The session will be held in the dining hall and will include a short presentation by the project team, followed by interactive activities for the public to provide input to the draft land use concept. Those attending the session should enter through the campus' main "Kente" entrance and can then follow the directional signs to the PIC.

Materials presented will be posted to the project's website shortly following the PIC. Additional comments will be accepted from September 22<sup>nd</sup> to September 29<sup>th</sup>. Comments are welcomed by phone, mail, or e-mail.

For more information, please review the project website or contact the Engineering & Development Services Department by email at [planning@belleville.ca](mailto:planning@belleville.ca) or by calling (613) 967-3288.
