1. How to Use this By-law

The City of Belleville Official Plan sets out the general policies and designations for future land use. The Zoning By-law implements the Official Plan and provides for its day-to-day administration.

The layout of this Zoning By-law is intended to provide a straightforward format for the reader. The reader should be able to look up their home or building in the maps, then find their applicable zoning and go to their zone's requirements, and finally find the applicable general and special provisions. Definitions are provided at the end of the document.

Section 2 provides details on the Zoning Maps. Sections 3 through 13 provide guidelines and requirements for standard zones while Section 14 provides information for Overlay Zones. Sections 15 through 17 include provisions that apply City-wide. Section 18 provides details on the administration of the Zoning By-law, and Section 19 provides definitions for terms used throughout the document.

2. Zones

2.1 Establishment of Zones

- (1) For the purposes of this By-law, the following Zones are now in place and shall be referred to in the text and in the accompanying and attached Zoning Maps and Schedules by the descriptive name or the symbol provided in this Section.

2.2 Interpretation of the Zoning Map

- (1) The zoning symbols on Table 2-1 that appear in the Zoning Map indicate that the lands are zoned to the corresponding Zone in Table 2-1 (e.g., 'C3' on the Zoning Map means the lands are zoned Regional Commercial). The symbology for any overlays applied to properties shown on the Zoning Map mean that the provisions of the respective overlay in Section 14 apply to those lands. Where the Zone symbol on the Zoning Map is followed by a dash and a number (e.g., 'R2-1'), then exception provisions apply to such lands. Such exception provisions will be found by reference to the "Exception Zones" subsection of that particular Zone. Lands zoned in this manner shall be subject to all the provisions of the Zone, except as otherwise provided by the exception provisions.
- (2) Where the boundary of any Zone shown on the zoning maps is uncertain then the following rules of interpretation apply, in the following order:
 - a) The Zone boundary is the boundary that appears to follow the lot lines shown on a registered plan of subdivision or lot lines on the zoning maps;
 - b) The Zone boundary is the boundary that appears to follow the edge of a street, lane, utility right-of-way, railway right-of-way, watercourse, or natural heritage feature, or that appears to follow the top of bank of a watercourse, high water mark of the Bay of Quinte, regulated floodplain, wellhead protection area in the Quinte Region Source Protection Plan, or intake protection zone in the Quinte Region Source Protection Plan;
 - c) The Zone boundary is the boundary that appears to follow the centreline of a street, lane, utility right-of-way, railway right-of-way, or watercourse;
 - d) The Zone boundary is the boundary that appears to be parallel to a street at a distance which is not indicated, and the resultant distance from the street shall be determined according to the scale shown on the Zoning Map; and
 - e) The Zone boundary is the centreline of a closed street or lane, if that closed street or lane:
 - i) originally formed a boundary between two or more different Zones, and
 - ii) the closed street or lane is included in the Zone of the abutting land.
- (3) Where a lot is divided into more than one zone, each portion of the lot must be used in accordance with the provisions of the applicable zone unless provided otherwise.

2.3 Zoning Maps

- (1) Zoning Maps are included as Schedule 'A' to this By-law.

3. Residential Zones

(1) For the purposes of this By-law, Residential Zones include:

1. Residential Type 1 – R1
2. Residential Type 2 – R2
3. Residential Type 3 – R3
4. Rural Residential – RR
5. Residential Mobile Home – RMH

(2) The following table identifies the permitted main uses in each Residential Zone:

 - iv) Changes are not permitted on floodplains, erosion hazards, wetlands, watercourses, or karst topographies.

14. Overlay Zones

For the purposes of this By-law, Overlay Zones include:

1. Intake Protection Zone Overlay – IPZ
2. Wellhead Protection Area Overlay – WHPA
3. Environmental Constraints Overlay – EC
4. Railway Influence Overlay – RI
5. Downtown Overlay – DT
6. Mature Areas Overlay – MA

14.1 Intake Protection Zone Overlay – IPZ

- (1) The area identified as Intake Protection Zone Overlay on any map to this Zoning By-law is located in an intake protection zone identified in the Quinte Source Protection Plan. The lands within the Intake Protection Zone Overlay are subject to all applicable provisions of this By-law, with the exception that any activity, use or undertaking that is prohibited or regulated under Section 59 of the Clean Water Act is not permitted except in accordance with the Clean Water Act.

14.2 Wellhead Protection Area Overlay – WHPA

- (1) The area identified as Wellhead Protection Area Overlay on any map to this Zoning By-law is located in a wellhead protection area identified in the Quinte Source Protection Plan. The lands within the Intake Wellhead Protection Area Overlay are subject to all applicable provisions of this By-law, with the exception that any activity, use or undertaking that is prohibited or regulated under Section 59 of the Clean Water Act is not permitted except in accordance with the Clean Water Act.

14.3 Environmental Constraints Overlay – EC

- (1) Developments in areas within the Environmental Constraints Overlay may be subject to the City's review and approval of an environmental site assessment, record of site condition, and/or remediation plan prior to issuance of a building permit.

14.4 Railway Influence Overlay – RI

- (1) Despite any other provisions of this By-law, the following provisions apply to the use of land and the erecting, locating, and using of buildings or structures in the Railway Influence Overlay subject to the general provisions of Section 15 of this By-law.
 - a) No dwelling, dwelling unit, community facility use or a use involving public assembly is permitted to locate within 300.0 metres of the Canadian Pacific Railway or Canadian National Railway right-of-way unless such use and development is in accordance with railway noise, vibration and safety impact studies satisfactory to the municipality in consultation with the relevant Railway.

- b) Despite Subsection (a) or any other provisions of this By-law, all new dwellings shall be setback a minimum of:
 - i) 15 metres from a principal branch line or secondary branch line.
 - ii) 30 metres from a principal main line or secondary main line.
- c) Despite any other provisions within this By-law, the following requirements shall apply to all lots that are accessed via a railway right-of-way crossing:
 - i) Only existing main and accessory uses are permitted.
 - ii) Despite Subsection i), new development may be permitted provided the proposed use and development is in accordance with railway noise, vibration, and safety impact studies satisfactory to the municipality in consultation with the relevant Railway.

14.5 Downtown Overlay – DT

- (1) The following provisions apply to the use of land and the erecting, locating, and using of buildings or structures in the Downtown Overlay subject to the general provisions of Section 15 of this By-law:
 - a) Motor vehicle uses shall not be permitted.
 - b) Drive-through facilities shall not be permitted.
 - c) Off-street parking shall be provided and maintained in conformity with the requirements of Section 17, with the exception that for the first 371.6 square metres of gross floor area of the building or structure no parking spaces shall be required for permitted main non-residential uses, and for the total gross floor area of the building or structure in excess of 371.6 square metres, the total number of parking spaces required for non-residential uses shall be reduced by 10% in total.
 - d) The minimum permitted building height shall be 10.6 metres.
- (2) The following provisions apply to the use of land and the erecting, locating, and using of new buildings or structures constructed after the effective date of this By-law in the Downtown Overlay subject to the general provisions of Section 15 of this By-law:
 - a) A minimum 1.5 metre step back is required for street-facing walls of buildings or structures for any floor level above a height of 13.5 metres above the established grade at the street line.
 - b) Permitted uses shall maintain a window-to-wall ratio along any street frontage of:
 - i) 60% minimum on the ground level; and
 - ii) 30% minimum on upper levels.

14.6 Mature Areas Overlay – MA

To be updated following an Official Plan Amendment.

15. General Provisions

The following General Provisions shall apply to the use of land and the erecting, altering, enlarging, locating, and using of buildings or structures in all zones as specified in this By-law.

15.1 Accessory Buildings or Structures

- (1) The total lot coverage of all accessory buildings and structures, excluding swimming pools, and porches and/or decks without a perimeter foundation, is subject to the following provisions:
 - a) Accessory buildings shall not exceed 10% total lot coverage.
 - b) Despite Subsection a), in Rural and Agriculture Zones, farm buildings such as barns, greenhouses, stables, and other agriculturally related buildings are not considered accessory buildings.
- (2) The minimum required interior side yard width and rear yard depth for accessory buildings or structures is:
 - a) 30.0 metres within the Aggregate and Extractive Industrial and Waste Disposal Zones, except 90.0 metres where abutting a residential zone.
 - b) 7.5 metres within the General Industrial and Rural Industrial Zones, except 12.0 metres where abutting a residential zone.
 - c) 7.5 metres within the Agriculture and Loyalist College Zones.
 - d) 3.0 metres within the Rural and Rural Residential Zones.
 - e) 1.0 metre within all other zones.
- (3) The maximum permitted height of accessory buildings or structures is:
 - a) 10.0 metres within the Rural, Agriculture, General Industrial, Rural Industrial, Aggregate and Extractive Industrial, and Waste Disposal Zones.
 - b) 4.5 metres within all other zones.
- (4) Accessory buildings and structures are subject to the following additional provisions:
 - a) Distance between an accessory building or structure and the main building on the lot (minimum): 1.0 metre
 - b) Subsection a) does not apply to decks, porches, steps, and other structures normally attached to a main building.
 - c) Distance between a detached accessory building or structure and any other detached accessory building or structure (minimum): 1.0 metre
 - d) No accessory building or structure shall be located closer to the street line(s) than the main building on the lot, except for the rear yards of through lots.
 - e) No accessory building or structure shall be located on a required landscaped area or buffer, natural hazard, wetland, watercourse, or body of water.
 - f) Within any Residential Zone, except the Rural Residential Zone, the maximum number of accessory buildings and structures shall be four (4).
 - g) Except as specifically stated elsewhere in this By-law, the use of any accessory building for human habitation is not permitted.

Shipping Containers

- (5) Shipping containers are subject to the following provisions:

- a) Shipping containers shall only be permitted as an accessory use to a permitted non-residential use on a lot where a main building exists.
- b) A shipping container is a permitted accessory structure within Commercial, Industrial, Community Facility, Agriculture, Rural, and Open Space Zones.
- c) A shipping container permitted by Subsection b), must be setback a minimum of 15.0 metres from any Residential Zone or from any residential use on the lot.
- d) Shipping containers are only permitted based on a rate of one (1) shipping container per 0.4 hectare of lot area to a maximum of six (6). In no case is a shipping container permitted on a lot having an area of less than 0.4 hectares. This Subsection d) does not apply to Industrial Zones.
- e) In no case shall a shipping container exceed a height of 3.0 metres and a total length of 16.8 metres.
- f) A shipping container shall only be located in the rear yard and shall be located no closer than 30.0 metres from any street line.
- g) A shipping container shall be screened from view from the street and abutting lots zoned Residential, Open Space, Environmental Protection or Community Facility.
- h) Unless stated elsewhere in this By-law, a shipping container shall not be located in a required parking area and in no case shall encroach into a required landscaped area or buffer.
- i) A shipping container shall not be placed for the purpose of display or advertising.
- j) Unless stated elsewhere in this By-law, a shipping container shall not be used for the purpose of a self-storage facility.
- k) Unless stated elsewhere in this By-law, a shipping container shall not be connected to water and sewer municipal services.
- l) Unless stated elsewhere in this By-law, the stacking of shipping containers is not permitted.
- m) A shipping container shall not be located in a natural hazard.
- n) A shipping container shall not be located in a wetland/watercourse/waterbody.
- o) Despite any other provision of this By-law, one (1) shipping container is permitted in the driveway of a residential lot for the purpose of the temporary loading or unloading of household items during the process of moving and for a period not exceeding five (5) days, provided the shipping container is located a minimum of 1.0 metre from all property lines and it does not occupy any required parking spaces as established by this By-law.
- p) Despite any other provision of this By-law, a shipping container is permitted on a construction site in any zone being developed on a stand-alone basis or under a plan of subdivision for the purposes of temporary storage of equipment and materials incidental to construction only and shall be removed from the site within 60 days of completing the work.

15.2 Adequate Servicing

- (1) No land can be used or the intensity of any use of land expanded, or any building placed, erected, altered, enlarged, unless the land is serviced by and connected to:
 - a) a public water supply system with adequate capacity; and
 - b) a public sanitary sewage disposal system with adequate capacity.
- (2) Despite Subsection (1), where public water supply or public sanitary sewage disposal systems are not available and the area is not shown within the Urban Boundary on the Official Plan, Schedule B Land Use Plan – Urban Serviced Area map, private services approved by the City or its delegate are permitted.

15.3 Frontage on a Public Street

- (1) No person may construct or use any building or structure on any parcel of land which does not front on an improved public street or is not accessible by a navigable waterway.

- (2) In accordance with Subsection (1), no person may sever any land unless the land severed, and the land retained abuts an improved public street with sufficient access.
- (3) Despite Subsection (2), lot line adjustments between parcels are permitted.
- (4) A lot existing on the day of the passing of this By-law, with lot frontage but less than required by this By-law, may be used and a building or structure may be erected, altered, or used on such lot, provided that all other applicable zone provisions of this By-law are complied with.
- (5) Despite any other provisions of this By-law to the contrary, individual units within a condominium development shall be permitted to front on to a private street.

15.4 Exterior Side Yard Requirement

- (1) Unless otherwise specified in this By-law, the exterior side yard requirement is the same as the front yard requirement for the zone in which such corner lot is situated.

15.5 Signs

- (1) Nothing in this By-law prevents the use of signs on any land, building or structure, but the erection, use and maintenance of such signs must be subject to the provisions of the current Sign By-law of the City of Belleville.

15.6 Residential Lot Occupancy

- (1) In any Residential Zone, no more than one (1) main building may be constructed on any lot, except:
 - a) For multi-unit dwellings;
 - b) Within condominium developments; or
 - c) As specifically stated elsewhere in this By-law.

15.7 Commercial Lot Occupancy

- (1) More than one main commercial building may be constructed on a lot in a C3 or C6 Zone, provided that:
 - a) The minimum lot frontage of a lot in a C3 Zone is 52.5 metres.
 - b) The minimum lot frontage and lot area of a lot in a C6 Zone is 133.0 metres and 14.0 hectares, respectively.
 - c) The minimum distance between main commercial buildings in a C3 Zone is 7.5 metres.
 - d) The minimum distance between main commercial buildings in a C6 Zone is 15.0 metres.
- (2) Multiple main buildings on lots in any commercial zone other than C3 or C6 are prohibited.

15.8 External Design and Character of Buildings

- (1) All buildings or structures newly constructed must have the roofs and outside walls finished with suitable material recognized as an outside cladding material.
- (2) No more than 20% of one-unit detached dwellings on a city block in a Plan of Subdivision approved after the day of the passing of this By-law may be the same external design, with respect to size and location of doors, windows, and projecting balconies.
- (3) In a residential development no more than three dwellings in a row of the same external design can be built upon adjoining lots that front on the same street.

15.9 Urban Home Occupation

- (1) Where this By-law permits, an urban home occupation is permitted in any dwelling unit, accessory dwelling unit, or detached garage in any zone that permits residential uses provided:
 - a) The home occupation is accessory to the use of the dwelling or dwelling unit.
 - b) A maximum of 25% of the gross floor area of the dwelling or dwelling unit is used for the purposes of the home occupation, excluding the floor area of an enclosed garage.
 - c) There is no visible display or indication of any home occupation from the street, other than the maximum of signage as provided for in the current Sign By-law of the City of Belleville.
 - d) The use does not change the external appearance of the dwelling or dwelling unit.
 - e) There is no outdoor storage associated with the home occupation (e.g., no storage of commercial motor vehicles, equipment, trailers, buses, etc.), except for one motor vehicle which is stored on a permitted driveway.
 - f) The use does not create or become a public nuisance, particularly regarding noise, odour, dust, fumes, vibration, traffic, or parking generated.
 - g) The use does not become a fire or building hazard or health risk.
 - h) Only one (1) non-resident of the dwelling on the lot may be employed by the home occupation.
 - i) In the case of a home occupation which is located within an accessory dwelling unit, or a dwelling unit within a multi-unit dwelling:
 - i) Non-resident employees are prohibited on the premises; and,
 - ii) No client or customer may be attended to or served on-site.

15.10 Rural Home Occupation

- (1) Where this By-law permits, a rural home occupation is permitted in any dwelling unit or in an accessory building, provided:
 - a) The home occupation is accessory to the use of the dwelling or dwelling unit.
 - b) Where located in a dwelling, a maximum of 25% of the gross floor area of the dwelling is used for the purposes of the home occupation.
 - c) The total gross floor area of an accessory building utilized by the rural home occupation does not exceed 50% of the total gross floor area of the main dwelling.
 - d) There is no visible display or indication of any home occupation from the street, other than the maximum of signage as provided for in the current Sign By-law of the City of Belleville.
 - e) The use does not change the external appearance of the dwelling or dwelling unit.
 - f) There is no outdoor storage associated with the home occupation, except for one commercial motor vehicle which is stored on a permitted driveway.

- g) The use does not create or become a public nuisance, particularly regarding noise, odour, dust, fumes, vibration, traffic, or parking generated.
- h) The use does not become a fire or building hazard or health risk.
- i) On-site storage of hazardous chemicals or explosives is prohibited.
- j) A maximum of two (2) non-residents of the dwelling on the lot may be employed by the rural home occupation.
- k) In the case of a home occupation which is located within an accessory dwelling unit:
 - i) Non-resident employees are prohibited on the premises; and,
 - ii) No client or customer may be attended to or served on-site.

15.11 Home Industry

- (1) Where this By-law permits, one home industry is permitted on a lot, provided:
 - a) The use is accessory to the use of the main dwelling.
 - b) The use is located in an accessory building or on any part of a lot subject to the other applicable provisions of this By-law.
 - c) The total gross floor area utilized by a home industry does not exceed the total gross floor area of the main dwelling.
 - d) A maximum of two (2) non-residents of the dwelling on the lot may be employed by the home industry.
 - e) Any outdoor area used for the home industry and its associated storage and parking must be screened from view from any abutting public street, or abutting property, with an opaque screen or fence that meets the height requirements of Section 15.19.
 - f) The outdoor area used for the home industry and its associated storage and parking must not exceed an area equal to 50% of the area of the building used for the home industry.
 - g) Outdoor storage is restricted to the rear yard or to an interior side yard, to a maximum of 100.0 square metres.
 - h) Outdoor storage is not located within 10.0 metres of any side or rear lot line.
 - i) Outdoor storage must be screened from view from any abutting public street, or abutting property, with a screen or fence that meets the height requirements of Section 15.19.
 - j) The use does not become a fire or building hazard or health risk.
 - k) On-site storage of hazardous chemicals or explosives is prohibited.
 - l) Any motor vehicles (e.g., commercial motor vehicles, equipment, trailers, buses, etc.) associated with a home industry must be parked in an area other than a public street or a required front yard.

15.12 On-Farm Diversified Uses

- (1) Where this By-law permits, on-farm diversified uses shall be permitted, provided:
 - a) The lot area occupied by all on-farm diversified uses shall be subject to the following:
 - i) The maximum area occupied shall be the lesser of 2% of the total lot area of the lot or 1.0 hectare (10,000 square metres), inclusive of land required for driveways, parking, and outdoor storage.
 - ii) Despite Subsection i), the lot area used by existing driveways may be discounted at a rate of 100%.
 - b) The maximum gross floor area for all buildings used for on-farm diversified uses shall be subject to the following:

- i) For all buildings, 20% of the lot area permitted under Subsection a).
- ii) Despite Subsection i), the gross floor area of existing buildings and buildings using the same footprint of previously demolished buildings may be discounted at a rate of 50%.
- c) When abutting a Residential Zone, a 3.0-metre-wide landscaped buffer shall be maintained along the shared lot line.

15.13 Accessory Dwelling Units

- (1) Despite any other provisions of this By-law to the contrary, one accessory dwelling unit, either within the main dwelling or within a detached accessory building, is permitted as an accessory use to any one-unit dwelling or place of worship.
- (2) A second accessory dwelling unit, either within the main dwelling or within a detached accessory building, is permitted as an accessory use to any one-unit dwelling provided the property is connected to full municipal services, but under no circumstances shall the total number of units on the lot be greater than three units.
- (3) Despite Subsection (2), only one accessory dwelling unit within a detached accessory building is permitted.
- (4) The combined total gross floor area of all accessory dwelling units must be less than or equal to the gross floor area of the main dwelling unit. This provision does not apply to a place of worship.
- (5) Each accessory dwelling unit must not exceed 100 square metres in gross floor area.
- (6) A maximum of two bedrooms are permitted within an accessory dwelling unit.
- (7) The lot has frontage on an open maintained public street.
- (8) The creation of an accessory dwelling unit must not result in any new doorway entrance added to the front wall of the main building, whether before, during, or after the creation of the accessory dwelling unit.
- (9) Subsection (8) does not:
 - a) prohibit an internal lobby or vestibule with a common doorway entrance in the front wall.
 - b) prohibit the creation of an accessory dwelling unit within a dwelling unit that already contains more than one doorway entrance in the front wall.
 - c) require the removal of a doorway entrance to a house that already contains more than one doorway entrance in the front wall.
 - d) prohibit the addition of one doorway entrance along the front wall of a dwelling unit on a corner lot where there is no doorway entrance along that front wall, but where there is one along the corner side wall of the dwelling unit.
- (10) A minimum 1.2-metre-wide access from the detached accessory dwelling unit to an open maintained public street must be provided.
- (11) Any lot with an accessory dwelling unit shall provide and maintain a minimum of 40% of the front yard as soft landscaping.
- (12) The maximum lot coverage of a detached accessory dwelling unit shall not exceed 40% of the yard in which it is located.
- (13) Accessory dwelling units are prohibited from future severance.
- (14) Other provisions for accessory buildings or structures as established within the underlying zone apply to detached accessory dwelling units.
- (15) No accessory dwelling unit shall be located within any area subject to natural hazards such as wetlands, unstable bedrock, erosion hazards, or flooding as defined within flood plain studies and the Bay of Quinte Lake Ontario Shoreline Management Plan.

15.14 Multiple Zones on One Lot

- (1) Where a lot is divided into more than one zone, each portion of the lot must be used in accordance with the provisions of the applicable zone; however, the zone boundary is not to be treated as a lot line.
- (2) Where two or more provisions are equally applicable, all provisions must be complied with or, where it is not possible to comply with all the provisions applicable, the most restrictive provisions must be complied with.
- (3) Where a lot contains multiple zones including the Environmental Protection Zone, the lot area and lot frontage of the Environmental Protection Zone shall be included when calculating the lot area and lot frontage for a permitted use. This provision shall not exempt a use from any requirement to provide safe access from a public street in accordance with applicable legislation.
- (4) Despite the above requirements, this provision does not apply to lands that are subject to a Holding (H) Provision.

15.15 Amenity Areas

- (1) A minimum of 18.5 square metres of amenity area must be provided for each dwelling unit on a lot with three (3) or more dwelling units in a three-unit dwelling, four-unit dwelling, one-unit townhouse dwelling, stacked townhouse dwelling, back-to-back townhouse dwelling, multi-unit dwelling, or mixed-use building. Where a one-unit townhouse dwelling is configured in a manner that each dwelling unit is located on its own individual lot, or where a one-unit dwelling contains accessory dwelling units totalling three (3) units, this requirement does not apply.
- (2) Despite Subsection (1), in the MX1 and MX2 Zones, a minimum of 10.0 square metres of amenity area must be provided for each dwelling unit on a lot.
- (3) Amenity areas must be designed and located so that the length does not exceed four times the width.
- (4) Amenity areas, if provided as communal space, must be aggregated into one area, or grouped into areas of not less than 54.0 square metres.

15.16 Dimensions of Lots

- (1) Where this By-law refers to the dimensions of any lot, the frontage of and depth of the lot must be measured by applying the following rules:
 - a) The lot frontage, where such lot has parallel side lot lines, must be measured on a straight line which is perpendicular to the side lot lines and 7.5 metres back from the front lot line. Where the side lot lines are not parallel, lot frontage must be measured on a line which is 7.5 metres back from, and parallel to, the front lot line.
 - b) For the purposes of Subsection a), the frontage of a corner lot which has a corner sight triangle, must be measured on a straight line, 7.5 metres back from the front lot line and perpendicular to the side lot line, between the side lot line and the projection of the exterior side lot line.
 - c) The frontage of a lot, where such lot has a curved or irregularly shaped front line (e.g., on a cul-de-sac or curved street), must be measured 7.5 metres back from, and parallel to, a straight line joining the two points where the side lot lines meet the ends of the front lot line.
 - d) The depth of a lot, for the purposes of establishing the dimensions of a lot, must be the horizontal distance between the front and rear lot lines and where these lines are not parallel, the horizontal distance between the mid-point of the front lot line and the mid-point of the rear lot line. Where no rear lot line exists, lot depth must be the distance between the apex of the triangle formed by the side lot lines and the mid-point of the front lot line.

15.17 Projections of Building Attachments

Accessibility Ramps

- (1) Nothing in this By-law, except Section 15.18, shall prevent the location of a barrier-free entrance that conforms to the requirements of the Ontario Building Code. Barrier-Free entrances shall include barrier free ramps, lifts, and associated landings.

Balconies

- (2) The following provisions apply to projections of balconies:
- a) Balconies shall not project into any required yard.
 - b) Where a balcony is wholly enclosed and is covered with a roof, it must comply with all provisions that apply to the main building.

Decks and Porches

- (3) The following provisions apply to projections of decks and porches:
- a) Decks and porches at or lower than 1.2 metres above grade:
 - i) May project up to 1.5 metres into a front yard but no closer than 2.0 metre from any front lot line.
 - ii) May project up to 3.0 metres into a required rear yard but no closer than 1.0 metre from any rear lot line.
 - b) Decks and porches higher than 1.2 metres above grade:
 - i) May project up to 1.5 metres into a required rear yard but no closer than 3.0 metres from any rear lot line.

Fire Escapes

- (4) The following provisions apply to projections of fire escapes:
- a) The maximum projection into any side yard is 1.2 metres from a wall.
 - b) The maximum projection into a rear yard is 1.5 metres from a wall.

Other Attachments

- (5) The following provisions apply to projections of other building attachments:
- a) Cornices, sills, eaves, and eaves troughs may project no more than 0.5 metres into any yard, including attachments to accessory buildings.
 - b) Chimneys may project no more than 0.6 metres into any yard.
 - c) Canopies, steps, and landings, which have a maximum of two enclosed sides by a railing, wall or privacy screen and exclude the wall of a main building:
 - i) May project up to 1.5 metres in a front or side yard but no closer than 1.0 metre from any side lot line.

- ii) May project up to 3.0 metres into a required rear yard but no closer than 1.0 metre from any rear lot line.

15.18 Corner Sight Triangles

- (1) Despite anything contained in this By-law, on a corner lot no person may place any building, structure, fence, landscaping, or other barrier which would obstruct visibility above a height of 0.6 metres above grade within a triangle formed by the boundaries of the lot common with the street line and a straight line connecting the points on each of those lines measured 6.0 metres from where they intersect.
- (2) In the case where the lot boundaries abutting the intersecting streets have been joined by a curve, the area between the chord joining the beginning and end of such curve, and the street line are considered the corner sight triangle.
- (3) Despite Subsection (1), for development that requires Site Plan Control, the required corner sight triangle will be determined through the City's Site Plan Control and/or subdivision approval process.

15.19 Fencing

- (1) Boundary fences and walls are permitted in all zones subject to the following provisions:
 - a) For all non-residential uses the maximum height is 3.0 metres, except in accordance with Section 15.18.
 - b) For all residential uses the maximum height is 2.4 metres, including in an exterior side yard, except in accordance with Section 15.18 and in the following locations:
 - i) For all residential uses the maximum height is 1.0 metres in the front yard.
 - ii) For all residential uses abutting multi-unit residential uses the maximum height is 3.0 metres along the shared lot line, except within the front yard.
 - iii) For all residential uses along a lot line abutting non-residential uses the maximum height is 3.0 metres, except within the front yard.
 - c) Fencing for the purpose of enclosing an outdoor recreational space (e.g., tennis court, basketball court) is permitted to a maximum height of 3.0 metres, provided the fence is a chain-link fence.
 - d) The provisions above do not apply to a noise barrier required adjacent to a 400-series highway or a railway right-of-way.

15.20 Refuse and Recycling Storage

- (1) All commercial, industrial, or multi-unit residential shall provide refuse and recycling bins subject to the following provisions:
 - a) All site refuse and recycling bins, including all other large receptacles used for the temporary storage of materials, must follow the minimum yard depth requirements of the underlying zone.
 - b) Garbage storage, recycling and collection facilities shall be made for any multi-unit residential, commercial, or industrial permitted use on the same site as the permitted use.
 - c) All site refuse and recycling bins, including all other large receptacles used for the temporary storage of materials, shall require screening by way of fencing and/or landscaping from adjacent lots and streets.
 - d) All screening shall be a minimum of 1.2 metres in height to a maximum height of 3.0 metres.
 - e) Any refuse and recycling areas co-existing with any parking or loading area:
 - i) Shall be clearly marked as separate and in addition to required parking and loading spaces.

- ii) Shall not be located in any public street.
- iii) Shall not be located in a fire access route.

15.21 Raised Planters

- (1) Raised planters may be used as a permanent fixture to prevent motor vehicle parking in the front yard and/or exterior side yard. Raised planters are deemed to be soft landscaping where any part of any yard other than the rear yard not occupied by accessory buildings and structures, permitted projections, bicycle parking and aisles, hardscaped paths of travel for waste and recycling management, pedestrian walkways, permitted driveways and parking exclusion fixtures must be soft landscaping.
- (2) In all Residential Zones, raised planters are exempt from minimum yard requirements, provided they are not located within any form of drainage management system (e.g., swale or ditch).
- (3) Raised planters may not be larger than 3.0 square metres in area and 0.6 metres in height.

15.22 Motor Vehicles in Yards

- (1) No person may use the yard of a lot for the parking of a derelict motor vehicle, including a motor vehicle which has had part, or all of its superstructure removed or is in a condition unable to obtain a licence.
- (2) The parking of motor vehicles associated with a one-unit, two-unit, three-unit, or freehold one-unit townhouse dwelling residential use is only permitted:
 - a) Within a driveway, private garage, or carport.
 - b) On a driveway accessing an individual dwelling unit, a private garage, or a carport.

Commercial Motor Vehicles

- (3) The parking or storage of one commercial motor vehicle per dwelling unit on a lot is permitted in any Residential Zone, subject to the following:
 - a) Motor vehicles that require the driver to have a Class A, B, C, or D licence are not permitted in a Residential Zone.
 - b) Motor vehicles that require the driver to have a Class E, F, G or M licence may be permitted in a Residential Zone, provided they do not exceed a gross vehicle weight of 3 400 kilograms.
 - c) Despite Subsection b), a commercial motor vehicle may be stored within a garage on a residential lot provided the gross vehicle weight does not exceed 6 000 kilograms.
 - d) No motor vehicle shall be parked on a landscaped area of any front, rear, interior side, or exterior side yard.
 - e) A parking area shall be setback a minimum of 1.0 metre from all lot lines.
 - f) Despite any other provisions, commercial motor vehicles which temporarily attend at premises for the purpose of delivering goods or providing a service to the occupant shall not be deemed to contravene this By-Law.

Recreational Trailers, Vehicles and Boats

- (4) The parking or storage of recreational vehicles, trailers, or boats is prohibited in a Residential Zone, except as follows:

- a) Recreational vehicles, trailers, or boats may be parked or stored on a lot provided it is parked or stored on a driveway, interior side yard, or rear yard or a private garage, and it is parked a minimum of 1.0 metres from any lot line (inclusive of any trailer hitch, tongue, or similar component).
 - b) Recreational vehicles, trailers, or boats may be parked or stored on a lot provided it does not occupy any required parking spaces as established by this By-law.
 - c) Recreational vehicles, trailers, or boats shall not be parked or stored on any area used for soft landscaping.
 - d) A maximum of two (2) recreational vehicles, trailers, or boats is permitted to be stored on a lot.
 - e) Where a recreational vehicle or boat is kept on a trailer, the recreational vehicle or boat and trailer together shall be counted as one recreational vehicle, trailer or boat.
- (5) Despite any other provisions in this By-law, within the Rural Residential Zone, up to five (5) recreational trailers, vehicles, and boats may be parked and stored on a lot.
- (6) Despite any other provisions in this By-law, recreational vehicles, trailers, or boats shall not be used for human habitation purposes at any time.

Food Trucks

- (7) Where permitted by this By-law, food trucks are permitted, in accordance with the following provisions:
- a) Shall be licensed in accordance with the current Business Licensing By-law of the City of Belleville.
 - b) Food trucks are permitted to occupy a maximum of two (2) parking spaces on a lot, excluding accessible spaces, car-share spaces, or visitor spaces.
 - c) Food trucks shall not occupy any driveway, aisle, or fire route.
 - d) Food trucks must be setback a minimum of 3.0 metres from all lot lines.
 - e) Food trucks must comply with corner sight triangle provisions in Section 15.18.

15.23 Heights of Buildings and Structures

- (1) The height of a building or structure is the vertical distance between the lowest grade point at the base of a front wall of a building or structure and the highest point of the roof surface.
- (2) For the purpose of determining the height of a building or structure, the following are not included:
- a) An elevator housing, a roof stairway, a water tank, photovoltaic solar panels, a ventilating fan housing, a skylight, a steeple, a clock tower, a chimney, a smokestack, a fire wall or a parapet wall, a barn, a belfry, a church spire, a communications tower, a corn crib, a drying elevator, a feed or bedding storage use, a hydro-electric transmission tower, a silo, and a water tower.
 - b) A roof sign, a radio or television aerial, a flagpole or similar device not structurally essential to the building.
- (3) Despite Subsection (2), buildings within the Canadian Forces Base Trenton height restriction boundary as shown on the Department of National Defence's Trenton Airport map and the Schedule of Lands Affected within the Trenton Airport Zoning Regulations (SOR/96-401) may not exceed the maximum height limit inclusive of the items listed in Subsection (2).

15.24 Landscaping

Landscaped Buffers

- (1) In all Residential Zones, on a lot with a long-term care home, back-to-back townhouse, stacked townhouse, or multi-unit dwelling, a landscape buffer shall be provided and maintained along all interior side and rear lot lines abutting one-unit dwellings.
- (2) In all Commercial, Mixed-Use, and Industrial Zones, a landscape buffer shall be provided and maintained along all interior side and rear lot lines abutting residential zones.
- (3) Where this By-law requires the provision of a landscaped buffer, the following provisions apply:
 - a) The lands provided must be graded, sodded and/or seeded to grass and planted with trees and/or shrubs so as to form at maturity a dense, thick screen or buffer at the perimeter. The said grass, trees and/or shrubs must be maintained or from time to time renewed by the landowner to provide and maintain a privacy screen for the residents of the area.
 - b) The minimum height of a landscaped buffer shall be 1.5 metres.
 - c) The minimum width of a landscaped buffer shall be 1.5 metres.
- (4) A privacy fence may be permitted in lieu of a landscaped buffer provided the fence is a minimum height of 1.8 metres and a minimum 1.5 metre setback from the fence is maintained as soft-landscaping.

Front Yard Landscaping for Residential Buildings

- (5) In all Residential Zones, on a lot with a one-unit dwelling, two-unit dwelling, three-unit dwelling, four-unit dwelling, or mobile home dwelling, the following front yard landscaping provisions apply:
 - a) For lots with a lot frontage less than 12.0 metres, the front yard, excluding a permitted driveway, must be landscaping.
 - b) For lots with a lot frontage of 12.0 metres or greater, a minimum of 50% of the front yard must be landscaping.
 - c) A minimum of 75% of the front yard landscaping required in (a) and (b) above, must be soft landscaping, and if a lot does not have a permitted driveway in the front yard, a minimum of 75% of the front yard must be soft landscaping.
- (6) In all Residential Zones, on a lot with a long-term care home, back-to-back townhouse dwelling, stacked townhouse dwelling or any multi-unit dwelling, the following front yard landscaping provisions apply:
 - a) A minimum of 50% of the front yard area of the lot must be landscaping.
 - b) A minimum of 50% of the landscaping area required in (a), above, must be soft landscaping.

15.25 Outdoor Storage

- (1) Where permitted by this By-law, outdoor storage is permitted, in accordance with the following provisions:
 - a) Outdoor storage must be accessory to a permitted use.

- b) Unless otherwise permitted, any outdoor storage shall not exceed 30% of the lot area except when associated with any defined motor vehicle use.
 - c) Any outdoor storage use shall maintain the same setbacks as required for the zone in which it is permitted.
 - d) No outdoor storage is permitted in the required front yard or the required exterior side yard of any lot.
 - e) Outdoor storage is not permitted within any yard adjoining a Residential Zone.
 - f) Any permitted outdoor storage use which adjoins a street or a lot in any zone other than the zone in which the outdoor storage is located must be screened from view from the street or lot through the construction and maintenance of a stone or masonry wall or chain link fence and a landscaped buffer and no such enclosure shall be less than 2.4 metres in height. The fence shall maintain the same setback as required for the outdoor storage. If the height of the outdoor storage exceeds the height of the fence, then a landscaped buffer containing coniferous trees must be provided between the fence and the lot line along the street.
 - g) Outdoor storage areas shall be constructed with a stable surface of asphalt, concrete, concrete or brick pavers, gravel, or similar materials, which have been treated to prevent the raising of dust or loose particles. All outdoor storage areas must be adequately drained.
 - h) Any area used for outdoor storage must not occupy any required parking spaces as established by this By-law.
 - i) If lighting facilities are provided in conjunction with any permitted outdoor storage use, then such lighting shall be so arranged as to deflect light onto the outdoor storage area and away from any adjoining properties or streets.
 - j) For lands abutting a 400-series highway, outdoor storage shall only be permitted in interior side yards and the outdoor storage must be fully screened from a 400-series highway.
- (2) Despite Subsection (1), outdoor storage of farm-related materials shall be permitted as an accessory use to an agricultural use.
- (3) Despite Subsection (1), the display of motor vehicles at a motor vehicle dealership or the storage of motor vehicles at a self-storage facility, where permitted by this By-law, is permitted in accordance with the following provisions:
- a) The outdoor storage area must be located outside of any required parking spaces, loading areas, and required buffer strips.
 - b) The outdoor storage area shall be established and maintained with a stable surface, treated so as to prevent the raising of dust or loose particles and comprised in whole or in part of one or more materials including asphalt, concrete, concrete or brick pavers, gravel or similar materials.

15.26 Setbacks from TransCanada Pipelines

- (1) Despite any provision of this By-law to the contrary, where any TransCanada Pipelines right-of-way exists, a minimum setback of 7.0 metres from the edge of the right-of-way shall be provided for the following:
- a) Main uses
 - b) Accessory buildings and structures
 - c) Parking areas or loading areas, including parking spaces, loading spaces, stacking spaces, bicycle parking spaces and any associated aisle or driveway.
- (2) Accessory structures may be subject to a reduced setback of 3.0 metres from the edge of the right-of-way, provided they are not affixed to the ground.

16. Specific Uses

16.1 Public Uses and Utilities

- (1) Nothing in this By-law prevents the use of a building, or part of a building, as a temporary polling station for a Federal, Provincial or Municipal election or referendum.
- (2) Despite any other provisions of this By-law, the City, or any public authority, may for the purposes of the public service, use any land or erect or use any building in any zone subject to the following provisions:
 - a) Such public use or utility must comply with all applicable zone provisions, parking and loading requirements of the zone in which it is located.
 - b) A minimum 1.5 metre landscaped buffer must be provided where any such use, building or structure is adjacent to a residential use.
 - c) Despite any provision of this By-law to the contrary, buildings and structures which are used for the storage of street maintenance materials within a public works yard owned by a public authority will be exempt from the height requirements of this By-law.
 - d) Outdoor storage of goods, materials or equipment are not permitted; unless such outdoor storage is specifically permitted in the zone in which the public use is located and is not permitted in any required yard abutting a Residential Zone.
 - e) Any above-ground utility or public use which is located in a residential or mixed-use zone, must be located and maintained in general harmony with the residential or mixed-use buildings permitted in such zone.
 - f) Electricity generation facilities and transmission and distribution systems are permitted in all zones subject to any regulatory requirements for the utility involved.
 - g) Municipal yards and public utilities are permitted in all zones subject to all provisions of this By-law that apply to the lot, except for minimum lot area or minimum lot frontage requirements; and
 - h) Secondary uses, such as active and passive recreation, agriculture, community gardens, other utilities and uses such as parking lots and outdoor storage that are accessory land uses, are permitted on hydro corridor lands, where compatible with surrounding land uses and allowed by the electricity transmission and distribution utility company.
- (3) Nothing in this By-law prevents land from being used as a street or prevent the installation of a water main, sanitary sewer main, storm sewer main, stormwater management facility, gas main, pipeline, overhead or underground electric, telecommunications or other supply and/or communication line, including their distribution, transformer, pumping and/or regulating stations, but not including their offices and maintenance facilities, provided that the location of such main, line or station has been approved by the City.
- (4) Within the Agriculture Zone, public uses and utilities shall be subject to the general provisions for on-farm diversified uses, see Section 15.12.
- (5) Despite Subsections (1), (2), (3), and (4), these provisions do not apply to a public use or utility which has been approved under the Environmental Assessment Act.
- (6) Nothing in this By-law prevents the establishment of publicly owned and operated parks or playgrounds, including any buildings or structures accessory to the parks or playgrounds, in any zone provided that such uses, buildings or structures must be in compliance with the provisions for the Open Space (OS) Zone.
- (7) Despite any other provision of this By-law, uses such as a storage trailer, shipping container, construction camp or other temporary work camp, a tool shed, scaffold, or other building or structure as well as the parking or storage of any construction equipment or construction motor vehicle(s) incidental to a Municipally, Provincially or Federally funded construction project or construction on private property are permitted provided that:
 - a) such uses, buildings or structures are only permitted for as long as the same are necessary for work in progress that has neither been finished nor discontinued for a period of 60 days.
 - b) a valid building permit or site alteration permit for the construction remains in place, if such a permit was required.

- c) such uses, buildings or structures are removed when the work in connection with which they were constructed is terminated.

16.2 Urban Agriculture

- (1) Where permitted by this By-law, a building or structure developed exclusively as part of an urban agriculture use is permitted, in accordance with the following provisions:
 - a) Building Height (maximum): 4.5 metres
 - b) Front Yard Depth and Exterior Side Yard Width (minimum): 3.0 metres
 - c) Yard Depth from all other lots (minimum): 1.2 metres
 - d) Lot Coverage (maximum): 20%

16.3 Backyard Hens

- (1) Where permitted by this By-law, hens may be kept in accordance with the following provisions:
 - a) A maximum of four (4) hens are permitted on a lot.
 - b) The keeping of roosters is prohibited.
 - c) Hens shall be housed in a coop that is constructed and maintained:
 - i) to provide protection from weather and be adequately ventilated.
 - ii) to exclude rodents and predators, and that all coops and runs are maintained in clean conditions and kept free of obnoxious odours, substances, and vermin.
 - d) A coop for keeping hens:
 - i) Shall be located at least 3.0 metres from the side lot line and at least 1.2 metres from the rear lot line of the lot.
 - ii) Shall be located at least 3.0 metres from abutting dwellings.
 - iii) Shall be at least 7.5 metres from any place of worship or school.
 - iv) Shall contain an enclosed roof structure and shall be no greater than 3.0 metres by 3.0 metres and no greater than 4.5 metres in height.
 - v) Shall only be located in the rear yard.
 - e) There is no sale of eggs, manure or other products associated with the keeping of hens.
 - f) There is no slaughtering or butchering of hens on the property. Deceased hens are to be disposed of at a livestock disposal facility, through the services of a veterinarian, hen exchange program, or through a facility as approved by the Ministry of Agriculture, Food and Rural Affairs and are to be disposed of in accordance with all laws.
 - g) Hens are to be kept in accordance with the City's Property Standards By-law, Noise By-law, and any other municipal by-law or provincial legislation with regards to the keeping of animals.

16.4 Kennels

- (1) Where permitted in this By-law, a kennel is subject to the following provisions:

- a) All components associated with a kennel, including buildings and all outdoor animal runs, are considered buildings for zoning purposes and must comply with all applicable provisions of this By-law.
 - b) Outdoor animal runs associated with a kennel must be located in the rear yard or interior side yard.
 - c) Minimum interior side and rear yard setback for kennels are 3.0 metres.
 - d) A shelter or stable for domestic animals or fowl shall be located no closer than 300.0 metres to a kennel.
 - e) A kennel on a lot in the Rural Zone shall be erected no closer than 45.0 metres to the interior side and rear lot lines and no closer than 90.0 metres from the front or exterior lot line.
- (2) Despite Subsection (1), when a kennel is established under the provisions of this By-law, the subsequent construction of a new dwelling unit on a separate lot does not render such kennel non-complying.
 - (3) All kennels legally existing as of the date of passing of this By-law which would be made non-complying uses under Subsection (1) are deemed to comply with this By-law.

16.5 Bed and Breakfasts

- (1) A bed and breakfast is only permitted in a one-unit detached dwelling and may provide a maximum of three (3) guest rooms.
- (2) The operation of a bed and breakfast shall be incidental and secondary to the main use of the dwelling.
- (3) There is no restriction to the amount of floor area dedicated to the bed and breakfast use.
- (4) A bed and breakfast shall provide meals only to guests of the bed and breakfast use.
- (5) A bed and breakfast must conform to all parking provisions and requirements of the zone where permitted.

16.6 Commercial Patios

- (1) Commercial patios may be permitted as an accessory use to any restaurant or food truck located in a commercial or mixed-use zone, subject to the following provisions:
 - a) The commercial patio is 25.0 metres from a lot in a residential zone.
 - b) The commercial patio is 5.0 metres from a dwelling on a lot in a non-residential zone.
 - c) Despite the above, no setback is required for an at-grade commercial patio from any lot containing dwellings only above the ground floor; and
 - d) Despite the above, no setback is required for a commercial patio from any lot containing a dwelling in a Mixed-Use zone.
- (2) No person may establish a commercial patio within any parking area that is required to satisfy the minimum parking requirements established by this By-law for all uses located on the same lot.
- (3) Despite the definition of 'Accessory Use' in this By-law, within any Mixed-Use Zone, a commercial patio may be permitted on lands separate from the lands upon which the main use is located, provided the commercial patio abuts the lands upon which the main use is located.
- (4) For purposes of this By-law, areas used for commercial patios are not considered gross floor area or gross leasable floor area and shall not be considered part of the building for purposes of determining lot coverage or required parking.
- (5) No additional parking is required for a commercial patio.

Seasonal Commercial Patios

- (6) Despite Subsection (2), between May 1st and September 30th, a commercial patio:
- a) May use required parking spaces, off-street parking spaces, driveways, or aisles, but must not occupy any accessible parking space or fire route.
 - b) May have an event tent or freestanding deck in a front yard for the purposes of a seasonal commercial patio, provided that the minimum yard requirements of the underlying zone are met.

16.7 Dangerous, Combustible, Inflammable or Explosive Substances

- (1) Unless otherwise specified by this By-law, no person shall use land or erect or use a building or structure in the defined area for the bulk storage of naphtha, gasoline, dynamite, dualin, nitro-glycerine or gunpowder, petroleum or other dangerous or combustible, inflammable or explosive substances.
- (2) No person shall use land or erect or use a building or structure in the defined area for any purpose which from its nature or the material used within is, under the Health Promotion and Protection Act or any other applicable provisions, declared to be a noxious trade, business, or manufacture.
- (3) Despite the provisions of Subsection (2), where dangerous or combustible, inflammable or explosive substances referred to in Subsection (1) above are an incidental but integral part of a manufacturing or assembling process, such substances may be used and stored on the premises of an industrial operation, subject to all other provisions of this By-law and provided that the handling and storage of such substances are in accordance with all other statutes and provisions governing the handling and storage of such substances.

16.8 Model Homes

- (1) Where a Model Home Agreement or a Subdivision Agreement permitting the construction of model homes has been executed by the owner and the City, model homes may be constructed prior to registration of the plan of subdivision under the Planning Act or a description under the Condominium Act, subject to the following provisions:
 - a) The use must be permitted in the underlying zone in which the one-unit or two-unit dwelling is to be located.
 - b) The maximum number of model homes within one plan of subdivision under the Planning Act or a description under the Condominium Act proposed for registration is equal to a maximum of ten (10) model homes within the plan or description for registration, unless Council approves a model home agreement to the contrary.
 - c) The model home must not be occupied as a dwelling unit prior to the date of the registration of the subdivision plan or condominium plan.
 - d) The model home agreement will allow the model homes to be constructed in advance of the underground services and registration of the plan but to only be used as sale models until registration of the plan of subdivision.
 - e) Construction of model homes will be at the developer's sole risk, and should for any reason final approval of the plan not be granted or other issues arise that render the model homes unusable, the developer will be fully responsibility for the costs of removal of the model homes or the pursuit of other remedies that may be available.
 - f) The model home must comply with all other provisions of this By-law, as though constructed on the lot within the registered plan of subdivision under the Planning Act or the description under the Condominium Act.
 - g) The model home must comply with all applicable terms and conditions of the Model Home Agreement or Subdivision Agreement, as applicable.

16.9 Drive-Through Facilities

- (1) Where there is a drive-through facility is permitted, the following shall apply:
 - a) A 15.0 metre setback shall be provided between the drive-through, including the drive-through speakers, and all adjacent residential, community facility, or open space zones.
 - b) A 6.0 metre landscaped area shall be provided and maintained along the portion of a lot line that abuts a Residential, Community Facility, or Open Space Zone.

16.10 Minimum Distance Separation

- (1) The development of new livestock operations or the expansion of existing livestock operations must comply with the minimum distance separation formulae of the Province of Ontario Ministry of Agriculture, Food and Rural Affairs. The minimum distance separation is applied between a livestock operation and another land use to minimize the impact of odours emanating from the livestock facility.
- (2) New development in proximity to existing livestock operations must also comply with the minimum distance separation formulae.
- (3) Despite Subsection (2), development is permitted for a one-unit detached dwelling on a vacant lot in existence as of the date of adoption of this By-law provided that the dwelling is located as far as possible from the livestock operation and that the applicable zone's setback provisions are complied with.
- (4) Despite any other provisions to the contrary, the minimum distance separation formulae do not apply to lands within the urban boundary as shown on Schedule B of the Official Plan.

16.11 Wayside Pits and Quarries

- (1) Wayside pits and quarries are permitted in all zones other than Environmental Protection, subject to all applicable Federal and Provincial statutes and regulations.
- (2) The reconstruction and/or enlargement of an existing dwelling that does not comply with minimum distance separation formulae is permitted so long as the reconstruction and/or enlargement does not further reduce the non-complying setbacks.

16.12 Special Events

- (1) Despite any other provisions in this By-law, special events such as festivals, fairs, or rodeos, may be permitted on lots zoned Rural or Agriculture subject to the following requirements:
 - a) The event is limited to three (3) consecutive days on a calendar year.
 - b) Only one (1) event is permitted within the calendar year.
 - c) The event has a minimum setback of 400.0 metres from any dwelling unit on a lot which is abutting or on the opposite side of the street.
 - d) The special event coordinator and/or the owner of the property submit an event plan to the satisfaction of the City.
- (2) Nothing in this By-law prevents the occasional use of a residential lot for a garage sale, subject to the provisions of the current Garage Sale By-law of the City of Belleville.

16.13 Boat Houses

- (1) Despite any other provisions in this By-law, a boat house on the Bay of Quinte may be permitted subject to the following requirements:
- a) Gross floor area maximum: 110.0 square metres
 - b) Minimum setback from Bay of Quinte high water mark: 7.5 metres
 - c) Maximum setback from Bay of Quinte high water mark: 8.5 metres
 - d) Minimum eastern side yard depth: 6.0 metres
 - e) Minimum western side yard depth: 6.0 metres
 - f) Minimum combined eastern and western side yard depth: 89.0 metres
 - g) Located above the 100-year flood plain elevation of the Bay of Quinte.
 - h) Located outside the erosion hazard of the Bay of Quinte as mapped within the Bay of Quinte/Lake Ontario Shoreline Management Plan.

17. Parking and Loading

17.1 General Parking and Loading Provisions

- (1) For all parking standards, the total required parking space is to be rounded up to the nearest whole parking space.
- (2) All motor vehicle parking spaces and loading spaces must have unobstructed access directly to a public street by:
 - a) A driveway or private way;
 - b) A public lane;
 - c) An aisle leading to a driveway, private way, or public lane; or
 - d) Some combination of (a), (b) and (c).
- (3) Where a required parking space must be eliminated to provide an accessible parking space, the number of provided parking spaces is deemed to meet the requirements this By-law.

17.2 Off-Street Parking Standards

- (1) For every building or structure erected, altered, or enlarged after the passing of this By-law, off-street parking shall be provided and maintained in compliance with the following tables, unless specified otherwise in this By-law.
- (2) For all parking calculations, the total parking spaces required is to be rounded up to the nearest whole number.
- (3) For multi-unit dwellings, dwelling units in mixed-use buildings, back-to-back townhouses, and stacked townhouses, the minimum number of parking spaces required may be reduced in accordance with the City of Belleville Cash-in-Lieu of Parking Policy.

Table 17-1 Residential Off-Street Parking Requirements

| Use | Minimum Required Parking Spaces | Minimum Required Parking Spaces in MX1 & MX2 Zones |
|--|---------------------------------|--|
| One-unit Detached Dwelling One-unit Semi-detached Dwelling One-unit Townhouse Dwelling | 1.0 per dwelling unit | N/A |

17.3 Supplementary Off-Street Parking Requirements

(1) The following supplementary requirements shall apply to all required parking areas in all zones:

Table 17-3 Supplementary Off-Street Parking Requirements

| Category | Requirement | | | | |
|---|---|------------------|------------------|------------------|---|
| Parking Angle | Less than 20 degrees | 20 to 50 degrees | 50 to 70 degrees | 70 to 90 degrees | 70 to 90 degrees with larger parking space width |
| Minimum Parking Space Width | 2.4 metres | 2.4 metres | 2.4 metres | 2.4 metres | 2.7 metres |
| Minimum Parking Space Length | 7.0 metres | 6.0 metres | 6.0 metres | 6.0 metres | 6.0 metres |
| Minimum Aisle Width | 3.9 metres | 3.9 metres | 5.5 metres | 7.0 metres | 6.7 metres, or 6.4 metres for solely residential uses |
| Acceptable materials for constructing parking area | In whole or in part of one or more materials including asphalt, concrete, concrete or brick pavers, or any type of permanent type surfacing with drainage facilities that comply with the City’s requirements. | | | | |
| Min. width of driveways leading to parking areas | 3.0 metres | | | | |
| Max. width of driveways leading to parking areas | 9.0 metres | | | | |
| Lighting requirements for parking areas | Lighting shall be arranged to divert light away from adjacent lots. | | | | |
| Other provisions | When a building or structure accommodates more than one type of use, the off-street parking space requirement for the whole building must be the sum of the requirements for the separate parts of the building or structure occupied by the separate types of use. | | | | |

- (2) All off-street parking required for any main use shall be provided on the same lot on which such main use is located.
- (3) Parking spaces must be setback a minimum of 1.0 metres from any main building, with the exception of a garage.
- (4) No obstruction of a required parking space shall be permitted, except as allowed in Section 17.8.

- (5) Where a minimum width of 3.0 metres is supplied in parking structures, supporting columns may project a maximum of 0.3 metres into one side only of the parking space, where the other side of the parking space is not limited by a solid wall and where the minimum aisle width is 6.4 metres for parking supplied in conjunction with residential uses, and 6.7 metres for non-residential uses.
- (6) Ingress and egress directly to and from any off-street parking spaces shall be by means of a hard-surfaced aisle.
- (7) Pedestrian access and off-street parking areas shall be such that vehicular and pedestrian movement is not prevented during a regulatory flood.
- (8) No gasoline pump for retail purposes or other motor vehicle fuelling station equipment shall be located or maintained on any off-street parking area.
- (9) The following additional requirements shall apply to required parking areas provided in all non-Residential Zones:
 - a) Where parking is provided in any front yard or exterior yard, the parking areas shall be separated from any adjacent street line by a minimum 1.5 metre wide landscaped area and such area shall include a curb or similar barrier, except for a driveway or driveways.
 - b) Where off-street parking abuts a Residential Zone, the parking area shall be separated from the abutting residential lot line by a landscaped buffer, except for a driveway.
 - c) An accessory structure not more than 4.5 metres in height and not more than 4.5 square metres in area may be erected in the parking area for the use of parking attendants and is subject to the provisions of Section 15.1.
- (10) For one-unit dwellings where not in the form of multiple buildings on a single lot (e.g., townhouse condominium development), the minimum required off-street parking space for the main use shall be located in a driveway and not a private garage.
- (11) For one-unit and two-unit dwellings, tandem parking shall be permitted.

17.4 Accessible Parking

- (1) The number of required accessible spaces by type is as follows:
 - a) Where the number of parking spaces in Table 17-1 or 17-2 is between 1 and 12 parking spaces, one parking space must be a Type A accessible space.
 - b) Where the number of parking spaces in Table 17-1 or 17-2 is between 13 and 100 parking spaces, 5% of the number of parking spaces in must be accessible spaces.
 - c) Where the number of parking spaces in Table 17-1 or 17-2 is between 101 and 200 parking spaces, one parking space plus 4% of the number of parking spaces must be accessible spaces.
 - d) Where the number of parking spaces in Table 17-1 or 17-2 is between 201 and 1,000 parking spaces, two parking spaces plus 3% of the number of parking spaces must be accessible spaces.
 - e) Where the number of parking spaces in Table 17-1 or 17-2 is more than 1,000 parking spaces, 11 parking spaces plus 2% of number of parking spaces must be accessible spaces.
- (2) Despite the above provisions, accessible parking spaces are not required for one-unit, two-unit, three-unit, or four-unit dwellings, except within condominium developments.
- (3) The calculation of the required number of Type A and Type B accessible spaces must comply with the following provisions:
 - a) Where an even number of accessible spaces is required by Subsection (1), an equal number of Type A and Type B accessible spaces must be provided.
 - b) Where an odd number of accessible spaces is required by Subsection (1), an equal number of Type A and Type B accessible spaces must be provided, but the additional accessible space, the odd-numbered space, may be either a Type A or a Type B accessible space.
 - c) Despite the above provisions, where only one accessible space is required, it must be a Type A accessible space.

- (4) Accessible parking spaces must comply with the following standards:
- a) All accessible spaces must:
 - i) Be located in an area where people with disabilities can easily access a building or facility via curb ramps, depressed curbs or other means.
 - ii) Be hard surfaced and level with a maximum gradient of 5%.
 - iii) Have an accessible permit parking sign that satisfies the requirements of the Highway Traffic Act.
 - iv) Type A accessible spaces must have signage that identifies the space as “van accessible”.
 - b) Accessible spaces must comply with the following minimum widths:
 - i) The minimum width of a Type A accessible space is 3.4 metres.
 - ii) The minimum width of a Type B accessible space is 2.7 metres.
 - c) Accessible spaces must comply with the following minimum vertical clearances:
 - i) The minimum vertical clearance of an accessible space located in a parking structure is 2.1 metres.
 - ii) The minimum vertical clearance of all other accessible spaces is 2.9 metres.
 - d) Accessible aisles must:
 - i) Be located on each side of each accessible space.
 - ii) Have a minimum width of 1.5 metres.
 - iii) Extend the full length of the accessible space.
 - iv) Be marked with high tonal contrast diagonal lines where the surface is asphalt, concrete or some other hard surface.

17.5 Off-Street Loading Requirements

- (1) For every building or structure within an Industrial or Commercial Zone there must be provided and maintained for the property, loading facilities on land that is not part of a street, comprised of one or more loading spaces in accordance with the gross floor area of the building or structure as follows:

Table 17-4 Off-Street Loading Requirements

| Gross Floor Area | Number of Required Loading Spaces |
|--|-----------------------------------|
| Less than 415 square metres | 0.0 |
| Between 415 square metres to 2,300 square metres inclusive | 1.0 |
| Greater than 2,300 square metres | 2.0 |

- (2) At least one off-street loading space must be provided for mixed-use buildings and multi-unit dwellings which exceed four (4) storeys in height.

- (3) Each loading space must not be less than 12.0 metres long and 3.6 metres wide and have a vertical clearance of not less than 4.5 metres.
- (4) Every loading space must have unobstructed access to a public street or lane by means of a driveway having a minimum width of 6.0 metres.
- (5) Every loading space must be constructed in whole or in part of one or more materials including asphalt, concrete, concrete or brick pavers, or any type of permanent type surfacing with drainage facilities that comply with the City’s requirements.
- (6) Every driveway must be surfaced in the same or better manner as the loading area.
- (7) Where the loading area is adjacent to a residential use or Residential Zone, any lighting fixtures must be fitted with cut-offs that focus light (and light reflected from the fixture) away from the residential use or Residential Zone.
- (8) Where the loading area is adjacent to a residential use or Residential Zone, a barrier at least 2.0 metres in height must be erected on the abutting lot line where it abuts the residential use or Residential Zone. Such barrier must be constructed of material and in a manner to effect complete visual screening of the loading area.
- (9) Where off-street parking abuts a Residential Zone, the parking area shall be separated from the abutting residential lot line by a strip of land at least 1.5 metres in width. Such strip of land shall be reserved for landscaping purposes or a fence except for a driveway or driveways.
- (10) For restaurants and hotels, a parking aisle may be used as a temporary loading space provided that the use of the parking aisle does not obstruct access to a fire route.

17.6 Residential Driveways

- (1) Every lot within a Residential Zone shall be subject to the following driveway provisions:
 - a) The minimum width of a driveway shall be 3.0 metres.
 - b) The maximum driveway width and number of driveways is as follows:

Table 17-5 Residential Driveways Requirements

| Total lot frontage | Maximum driveway width, individual or combined | Maximum number of driveways |
|--------------------------|---|-----------------------------|
| 10.0 metres or less | 40% of the total lot frontage | 1 |
| Greater than 10.0 metres | 50% of the total lot frontage, up to 9.0 metres | 2 |

- (2) Despite Subsection (1), driveways on corner lots shall not occupy more than 50% of the front yard or the exterior side yard.
- (3) The minimum distance between an intersection of street lines and the nearest part of a driveway or parking area shall be 6.0 metres.
- (4) Despite Subsections (2) and (3), where a corner sight triangle has been conveyed to a Public Authority, the distance and percentage of driveway coverage shall be measured and/or calculated as if the sight triangle had not been conveyed.
- (5) In a Residential Zone, no parking space may be established, and no person may park a motor vehicle outside of a driveway:
 - a) In a required front yard;
 - b) In a required rear yard;

- c) In a required exterior side yard; or
 - d) In the extension of a required exterior side yard into a rear yard, except if said parking is provided on a driveway and the exterior side yard maintains landscaping minimums as required by front yard landscaping requirements.
- (6) Despite any other provision of the By-law to the contrary, the number, width, and location of driveways on a lot must be in accordance with the City of Belleville’s current Driveway Control By-law.

17.7 Bicycle Parking

- (1) For every building or structure erected, altered, or enlarged after the passing of this By-law, bicycle parking must be provided on the lot for the land uses and at the rate set out in the following table:

Table 17-6 Bicycle Parking Requirements

| Land Use | Required Bicycle Parking |
|---|---|
| Long-term care home | 0.1 per bed |
| Multi-unit Dwelling | 0.5 per dwelling unit |
| Dwelling unit within a post-secondary educational institution | 0.75 per dwelling unit |
| School | 1 per 100.0 square metres of gross floor area |
| Secondary educational institution | 1.0 per 250.0 square metres of gross floor area |
| Restaurant | |
| Library | |
| Bus station | |
| Public use, where there is a building associated with the use | |
| Personal Service Shop | 1.0 per 500.0 square metres of gross floor area |
| Retail Store | |
| Train Station | 1.0 per 750.0 square metres of gross floor area |
| Hospital | 1.0 per 1 000.0 square metres of gross floor area |
| Hotel | |

| Land Use | Required Bicycle Parking |
|---|---|
| Truck and/or Transportation Terminal Warehouse | 1.0 per 2 000.0 square metres of gross floor area |
| All other non-residential uses | 1.0 per 1 500.0 square metres of gross floor area |

- (2) Each bicycle parking space shall be 0.6 metres by 1.8 metres in size.
- (3) Each bicycle parking space shall be surfaced and have a fixture to lock a bicycle to.

17.8 Car Sharing

- (1) Car-sharing services are permitted in the R3, C1, C2, C3, MX1, MX2, IN1, IN2, and CF Zones.
- (2) Car-sharing spaces are permitted in any parking lot or parking garage in any zone in which car-sharing services are permitted, and may occupy up to three required parking spaces, but shall not occupy more than 50% of the required parking spaces nor shall they occupy any accessible parking space.
- (3) For every car-sharing space provided, the parking requirement may be reduced by three (3) spaces, however the requirement for accessible parking spaces is not reduced.

17.9 Seasonal Use of Required Parking Spaces

- (1) A seasonal garden centre, farmers’ market, or a temporary special event accessory to retail store, retail food store, shopping centre, or place of worship may be located such that it temporarily prevents the use of a portion of the required or provided parking spaces, aisles, or driveways, provided that:
 - a) more than 50% of the parking spaces continue to be available in compliance with this By-law.
 - b) the seasonal garden centre, farmers’ market, or temporary special event does not obstruct access to a fire route.
- (2) No additional parking is required for these activities or for an outdoor commercial patio or retail food store, limited to a farmers’ market, whether it is indoors or outdoors. For the purpose of this Section, a temporary special event includes a seasonal or short-term fair, carnival, show, exhibit, or other similar events.

18. Administration and Interpretation

Administration

18.1 Purpose

- (1) The purpose of this Zoning By-law is to regulate the use of lands and the character and use of buildings and structures in the City of Belleville pursuant to the authority contained in Section 34 of The Planning Act, R.S.O., 1990, Chapter P.13, as amended.

18.2 Title

- (1) This By-law may be cited as the City of Belleville Zoning By-law.

18.3 Area Defined

- (1) The provisions of this By-law, for the purposes of interpretation and application, shall be held to be the minimum requirements adopted for the health, convenience, safety, and general welfare of the public and shall apply to all lands, and the buildings and structures erected on, lying, situated and being in the City of Belleville, including any floating building or structure that is anchored to land underneath a waterbody.

18.4 Conformity

- (1) No person will use any land, erect, place, alter, expand, or use any building for any purpose except as stated in this By-law and in conformity with all the applicable provisions of this By-law.
- (2) Nothing in this By-law shall apply to exempt any person from complying with the requirements of any By-law in force within the City, or from obtaining any license, permission, consent, permit, authority, or approval required by this or any other By-law of the City or by any other Federal, Provincial or Municipal Law in force at this time of the passing of this By-law.
- (3) Where land is proposed to be used or a building or structure is proposed to be erected or used in violation of this By-law:
 - a) No permit for the use of the land or for the erection or use of the building or structure shall be issued.
 - b) No occupancy permit (in accordance with the Building Code Act) shall be issued.
 - c) No municipal license shall be issued.
- (4) Minor variances to definitions shall not be permitted.
- (5) Where the Committee of Adjustment of the City of Belleville or the former Township of Sidney, former Township of Thurlow or the Ontario Land Tribunal has authorized a minor variance from the provisions of former By-laws 10245, 2076-80 and 3014 as amended, in respect of any land, building or structure and the decision of the said Committee of Adjustment or the Ontario Land Tribunal

authorizing such minor variance has become final and binding prior to the effective date of this By-law, the provisions of this By-law, as they apply to such land, building or structure, shall be deemed to be modified but only to the extent necessary to give effect to the provisions of that previous minor variance.

18.5 Non-Conformity and Non-Compliance

- (1) Nothing in this By-law shall apply:
 - a) to prevent the use or maintenance of any land, building or structure for any purpose prohibited by the By-law if such land, building, or structure was lawfully used for such purpose on the day of passing of the By-law, so long as it continues to be used for that purpose; or
 - b) to prevent the erection, maintenance or use for a purpose prohibited by the By-law of any building or structure the plans of which have, prior to the day of passing of the By-law, been approved by the Chief Building Official, so long as the building or structure when erected is used and continues to be used for the purpose for which it was erected.
- (2) Nothing in the By-law shall prevent the strengthening or restoration to a safe condition of any non-conforming building or structure, provided such restoration or repair does not increase the height or size or change the use of such building or structure, unless such change in use is in conformity with the provisions of the zone in which such use is located.
 - a) For the purposes of Subsection (2) above, restoration shall also mean the reconstruction of a building or structure.
- (3) Despite anything in the By-law, no person shall reduce any lot in area, either by conveyance or other alienation of title of any portion of the lot so that the area covered by buildings or structures on the lot exceeds the maximum permitted by this By-law or the yards provided are less than the minimum permitted by this By-law, for the zone in which the lot is situated. However, no person shall be deemed to have contravened any provision of this By-law by reason of the fact that any part or parts of any lot has or have been conveyed to or acquired by any Public Authority.

18.6 General Administrative Provisions

- (1) This By-law shall be administered by the Director of Engineering & Development Services, or in the absence of the Director, the Manager of Approvals or the Manager of Policy Planning or any other authorized member of the Department of Engineering & Development Services.
- (2) Any City of Belleville employee authorized by the Director of Engineering & Development Services is hereby authorized to enter, at all reasonable times, upon any property or premises for the purpose of carrying out his duties under this By-law.
- (3) Any City of Belleville employee authorized by the Director of Engineering & Development Services may designate either street-line of a through lot as the front lot line.
- (4) In the event of conflict between this By-law and any general or special By-law, the most restrictive By-law shall prevail.
- (5) Where a situation arises that is not covered by a specific provision, the provisions of this By-law apply by analogy to that situation, so that the application ensures the effective implementation of its provisions and intent.
- (6) Editorial revisions may be made to this By-law without the need for a Zoning By-law amendment in order to:
 - a) Correct numbering, cross-referencing, grammar, punctuation or typographical errors or revisions to format in a manner that does not change the intent of a provision.

- b) Add or revise technical information on maps or schedules that does not affect the zoning of lands including, but not limited to, matters such as updating and correcting infrastructure information, keys, legends, or title blocks.
 - c) Revise the base mapping and parcel fabric updated from the Ontario Land Registry Office.
 - d) Change formatting, appendices, footnotes, headings, indices, marginal notes, tables of contents, illustrations, historical or reference information, page numbering, footers, and headers, which do not form a part of this By-law and are editorially inserted for convenience of reference only.
- (7) Despite any other provision within this By-law, the administrator may round up or down to the nearest the one-tenth's or one-one-hundredth's digit at the discretion of the administrator, without the need for a minor variance.

18.7 Violations and Penalties

- (1) Every person who uses any land, or erects or uses any building or structure in a manner contrary to any requirements of this By-law, or who causes or permits such use or erection, or who causes or permits a violation of this By-law, shall upon conviction therefore, forfeit and pay at the discretion of the "justice" a penalty not exceeding the sum of \$25,000.00 (exclusive of costs) for each offence, and in addition, a fine not exceeding \$10,000.00 for every day the offence continues, and the provisions of the Provincial Offences Act as provided and limited by the Municipal Act shall also apply.
- (2) Every corporation who uses any land, or erects or uses any building or structure in a manner contrary to any requirements of this By-law, or who causes or permits such use or erection, or who causes or permits a violation of this By-law, shall upon conviction therefore, forfeit and pay at the discretion of the "justice" a penalty not exceeding the sum of \$50,000.00 (exclusive of costs) for each offence, and in addition pay a fine not exceeding \$25,000.00 for every day the offence continues, and the provisions of the Provincial Offences Act as provided and limited by the Municipal Act shall also apply.
- (3) In addition to any other remedy or any penalty provided by law, where a conviction has been entered, any court of competent jurisdiction may then make a prohibition order regarding the continuation or repetition of the offence by the person convicted. Where this By-law is contravened, in addition to any other remedy provided and to any penalty imposed by this Section, such contravention may be restrained by action at the instance of the City or any ratepayer of the City.
- (4) Subject to and in accordance with the provisions of the Planning Act, where the Director believes on reasonable grounds that this By-law is being contravened, the Director or any person acting under their instructions may, at all reasonable times, enter and inspect any property on or in respect of which they believe the contravention is occurring.

18.8 Repeal

- (1) The following By-laws are repealed upon the coming into force of this By-law:
 - a) City of Belleville By-law 10245;
 - b) former Township of Sidney By-law 2076-80; and,
 - c) former Township of Thurlow By-law 3014.

18.9 Transition

Complete Applications for a Building Permit

- (1) Nothing in this By-law prevents the development or use of a lot or a building for which a complete application for a building permit was received by the City on or before the date of passing of this By-law, if the development or use complies, or the building permit application is amended to comply, with the provisions of the applicable former zoning by-law as it read immediately prior to the passing of this By-law.

Other Types of Complete Applications

- (2) Where a complete application was received by the City on or before the date of passing of this By-law for the development or use of a lot or one or more buildings, approval may be granted in the context of the applicable former zoning by-law as it read immediately prior to the passing of this By-law, for one or more of the following applications where they are consistent with the intent of the complete application:
 - a) Any application under Section 45 of the Planning Act;
 - b) Site plan control approval pursuant to Section 41 of the Planning Act;
 - c) Consent pursuant to Section 53 of the Planning Act;
 - d) Draft plan of subdivision pursuant to Section 51 of the Planning Act or a description under the Condominium Act, 1998, S.O. 1998, c.19;
 - e) Payment in lieu of parking agreement pursuant to Section 40 of the Planning Act; and
 - f) A part lot control exemption pursuant to Section 50 of the Planning Act.
- (3) Where the development or use of a lot or one or more buildings qualifies under Subsection (2), a building permit may be issued after final approval is received for all required applications if the development or use complies, or the building permit application for the development or use is amended to comply, with the provisions of the applicable former zoning by-law as it read immediately prior to the passing of this By-law.
- (4) Nothing in this By-law applies so as to continue the exemption provided by Subsections (1) and (2) beyond the issuance of the final building permit upon which the exemptions are founded.
- (5) Section 18.9 is repealed in its entirety three (3) years after the date of passing of this By-law.

18.10 Validity

- (1) Should any section or provision of this By-law, including anything contained on the schedules or zoning maps, be declared by a court of competent jurisdiction to be invalid, only that portion will be invalid, and all other provisions of the By-law shall continue to be in force.

Interpretation

18.11 General Rules of Interpretation

- (1) This By-law may be cited by its long title, its short title, or by its By-law number, and any such citation is to be taken as meaning the By-law as amended.
- (2) The following rules and definitions apply to this By-law, unless a contrary intention is evident from the context:
 - a) this By-law is written in plain language; and
 - b) a deliberate attempt has been made to keep the words, the grammar and the syntax used as simple as possible while meeting the legal requirement for clear and precise legislation.
- (3) The words and phrases used in this By-law have their normal and ordinary meaning, except for the interpretation of terminology which is subject to Section 19.
- (4) Definitions are given in this By-law to aid in the understanding and implementation of the true spirit, intent, and meaning of the By-law. They are not to be used to avoid an obligation imposed by the By-law or any requirement enacted in a substantive provision of the By-law.
- (5) Despite the tense used in a provision:
 - a) every provision of this By-law is to be applied to the circumstances as they exist at the time in question; and
 - b) every obligation imposed by this By-law is a continuing one so long as either the use, the circumstances, the reason for the obligation, or the events which caused, precipitated, or gave rise to the obligation continue.
- (6) Words in the singular include the plural, and words in the plural include the singular.
- (7) Appendices, footnotes, headings, indices, marginal notes, tables of contents, illustrations, references to former enactments, By-laws, or enabling legislation do not form part of the By-law and are included for convenience of reference only.
- (8) Tables are part of the By-law and are used throughout to present provisions in a concise format.

18.12 Holding Zones

- (1) Holding Zones are created by adding an “-H” to the zone code on the zoning maps, and have the effect of allowing the uses set out in the corresponding text of the By-law at some time in the future, when the Holding Symbol is removed by an amendment to the Zoning By-law once specified conditions, which are identified in the holding provisions, are met (e.g., conditions related to environmental, transportation, and/or servicing matters).
- (2) Holding Zones may contain an addition number following the “H” symbol (e.g. -H1) which shall act as a unique identifier for a specific Holding Symbol when the affiliated zone code does not contain any site-specific provision.
- (3) The provisions affiliated with individual Holding Zones are found within the Exception Zone subsection of the primary Zone (e.g., the provisions for R1-H are found under the Exception Zone subsection of the R1 Zone).

19. Definitions

- (1) In this By-law, terminology shall be interpreted as defined in Table 19-1, but if a term is not defined in Table 19-1 then the following order of interpretation applies:
- a) The term as defined in a site-specific zoning By-law provision.
 - b) The term as defined in the Provincial Policy Statement.
 - c) The term as defined in the City’s Official Plan.
 - d) The term as defined based on the common Canadian dictionary definition.
 - e) The term as defined in writing upon request of the Director of Engineering & Development Services, or a person delegated by the Director.
